# Recycling made **EASY!**

The easy to use **Smart**TRASHER recycling system.  
The must have plug and go domestic appliance  
“a pleasure to use!”

Open the one touch top drawer, load recycling waste into the identified compartment, close the top drawer and the **Smart**TRASHER automatically compacts and deposits compacted sorted material into the individual recycling bins in the lower drawer. A separate food waste compartment is sealed allowing easy storage of this valuable compost resource.
